

EDGES AND END BITS

Lower your operating costs with quality Tensiloy® replacement parts

Cutting Edges and End bits

Hot cupped end bits provide maximum penetration.
Heat treated, through hardened, quenched & tempered alloy steel.
Complete range of thicknesses in standard and heavy duty.
The complete range to suit Caterpillar, Komatsu and all other makes and models.
Heat treated, through hardened, quenched & tempered alloy steel.

Heat Treated Grader Blades

To suit all makes and models:

- Through hardened & standard carbon
- Double Bevelled Curved, 6" and 8"
- Double Bevelled Flat, 8" and 10"
- Standard or Serrated
- Blades / Overlays & Underlays
- Moldboard Liners
- Scarifier Shanks & Teeth

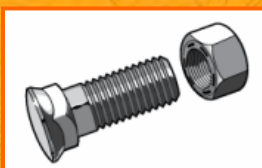

Base Edges and Bolt-on Cutting Edges

To suit all makes of:

- Loaders
- Excavators
- Backhoes
- Wrap around ends
- Spade Nose
- Standard or custom design
- Drilled for Adaptors & Segments
- Heat Treated for longer life
- Weld-On Corner Guards
- Bolt-On, Weld-On Adaptors
- Specials made to order

Cutting Edges and Router Bits

- To suit both elevating and open bowl
- Through hardened alloy steel
- Standard and heavy duty applications.

Plow Bolts and Nuts

Cutting Edges supplies grade 9 plow bolts with a raised countersunk head. All plow bolts are heat treated to provide a tensile strength of 170,000 p.s.i.

QUALITY EQUIPMENT PARTS

Reduce your operating costs
from Australia's largest supplier of aftermarket parts

Ground Engaging Tools

A comprehensive range of edges & end bits, teeth and adaptors, lip shrouds, ripper boots and tynes to suit all makes and models of loaders, excavators, dozers and general earthmoving, mining and construction machines.

Crusher Wear Parts

A wide range of quality crusher wear parts to suit most machines. Castings are manufactured in a variety of materials including manganese steel, alloy steel and ductile iron.

Wearplate

Wear resistant products including wear plate, Tungsten Longlife Coating and white iron block & bar. Our CC1500 wearplate will outlast quenched and tempered steels by up to 12 times and white irons by up to 4 times.

Mining Products

Products for the mining industry include wearplate, apron feeder pans, Cutting Edges' patented ground engaging tools locking system incorporating Dynalock, R-Lock and Dynaclamp, and track shoes for a variety of machines.

Engine Parts

Quality engine parts for most brands of machinery and trucks, including rebuild kits, crankshafts, camshafts, compressors, and water pump kits. Professional service, competitive prices and off the shelf availability.

Machine Parts

Quality replacement parts to suit most machines including pins & bushes, hydraulic seals & pumps, brake components, oil & water pumps, fuel pumps and power train components. Comprehensive warranty on all parts.
