

WHITE IRON BLOCKS AND BAR – XT BLOK

Provide added protection for your machinery
Quality, service and support at competitive prices

XT Blok is a composite white iron wear surface vacuum brazed to a weldable mild steel backing in plate, buttons, blocks & bars.

XT Blok is typically welded to the surface of mining buckets and teeth/adaptors to provide protection from severe abrasion and impact encountered in service.

The wear resistant white iron component conforms to Australian Standard AS2027 and is a CrMoCu-1521 (15%Cr2%Mo 1%Cu) martensitic white iron alloy.

XT Blok alloy has excellent hardenability, is produced with a minimum bulk hardness of 700 BHN and contains primary carbides up to 1500 HV.

XT Blok is supplied in a variety of sizes and incorporates a notched backing, making it easy to cut to size and also to bend so as to offer protection to contoured surfaces.

QUALITY EQUIPMENT PARTS

Reduce your operating costs
from Australia's largest supplier of aftermarket parts

Ground Engaging Tools

A comprehensive range of edges & end bits, teeth and adaptors, lip shrouds, ripper boots and tynes to suit all makes and models of loaders, excavators, dozers and general earthmoving, mining and construction machines.

Crusher Wear Parts

A wide range of quality crusher wear parts to suit most machines. Castings are manufactured in a variety of materials including manganese steel, alloy steel and ductile iron.

Wearplate

Wear resistant products including wear plate, Tungsten Longlife Coating and white iron block & bar. Our CC1500 wearplate will outlast quenched and tempered steels by up to 12 times and white irons by up to 4 times.

Mining Products

Products for the mining industry include wearplate, apron feeder pans, Cutting Edges' patented ground engaging tools locking system incorporating Dynalock, R-Lock and Dynaclamp, and track shoes for a variety of machines.

Engine Parts

Quality engine parts for most brands of machinery and trucks, including rebuild kits, crankshafts, camshafts, compressors, and water pump kits. Professional service, competitive prices and off the shelf availability.

Machine Parts

Quality replacement parts to suit most machines including pins & bushes, hydraulic seals & pumps, brake components, oil & water pumps, fuel pumps and power train components. Comprehensive warranty on all parts.
